(Discuss importance in terms of historical or architectural context as defined by theme, period, and geographic scope. Also address integrity.)

The structures are located in the City of Huntington Park, in a small scale residential area. The multi-family complex is post WWII vernacular in style, a very common design in southern California. According to the Los Angeles County Tax Assessors database, the following units are located on the property: the original 1939 dwelling is a 2 bedroom/1 bath unit measuring approximately 702 sq. ft.; the dwellings constructed in 1941 include 2 units that are 4 bedroom/2 bath, and 6 units that are 3 bedroom/3 bath.

The integrity of this property is low. It is not a particularly good example of the architectural style or of a method of construction. Research of available historical records has not uncovered any significant associations of the occupants.
